TORTURE-MURDERER SUSPECT HELD RUTH TRIED DEATH RETURN

The CORE

Clarence Chamberlin will start at dawn tomorrow on another attempt at breaking the world record for endurance flight, it was announced last night, after he missed his goal by half an hour.

A police of open diplomacy, patience, and good will toward the Central American republics was definitely fixed yesterday while President Coolidge and his imposing party journeyed to the Pan-American congress at Havana.

King Feud, of Egypt is expected to send out soon formal invitations to the governments and religious leaders of the entire globe to attend a brotherly-love conference in Cairo, sometime in 1930.

Planes are being used in Alaska to round up reindeer.

Five hundred Oregon State college co-eds gave orders for hostesses amounting to \$1.50 and \$2.00 to be presentable young men representing themselves as business men a month before Christmas. They are now anxious to get the hostess and also the young man.

The principal question of the day is: How will President Coolidge satisfy his thirst while in Havana, where wine flows like the proverbial spring at all State functions.

Eight sailors on the British ram-schooner, Gaspe Fisherman, afloat beyond the twelve mile limit off Nantucket Shoals were rescued by a coast guard cutter yesterday.

George Deighton walked into the Toronto police station yesterday and calmly announced that he had just killed his wife, son and daughter with a hatchet.

Electrical Post Will Be Filled

The new electrical inspector for the city of Richmond will in all probability be appointed by the city council tomorrow night when the council takes action on an ordinance creating the new position. Funds for the salary of an electrical inspector, the duties of which department are now being handled in conjunction with the other work of the city building inspector, were provided for by the council at the time the budget was prepared at the beginning of the fiscal year. For this reason, it is felt that the council will act favorably on the ordinance creating the office.

A number of applicants have already been examined for the position and their previous experience and qualifications for the office have been investigated by City Manager James A. McVittie.

LEAVES FOR W. V.
Mrs. Nellie Day of 3825 Barrett avenue, will leave tomorrow for Duckham, West Virginia, where she has been called by the illness of her mother, Mrs. Sarah Hamner. Mrs. Day will travel via Chicago.

Blacksmithing

A good blacksmith is hard to find these days, and yet his services are often required for work no other can adequately handle. In the Buyer's Guide may be found an index to reliable smiths in this city, and whose aid may solve a vexatious worry.

Murderess Planned To Cheat Grave By Using Life-Restoring Drug

NEW YORK, Jan. 14.—Ruth Snyder hoped to return from the trip "in back."

A faint faith in a miracle of science led her to give consent to an unprecedented experiment, according to a statement made tonight by Joseph Lonardo, one of her attorneys.

The warden of Sing Sing and the attorney general of the state of New York blocked the experiment.

STARTLING STORY

The startling story told by the attorney is as follows: Behind the order demanding that the body of Ruth Snyder be turned over to relatives immediately after the execution, without any surgical incisions or the removal of any vital organs, was a purpose.

Less than a mile from the prison, the attorney alleged, a prominent surgeon was to have waited. A private ambulance was to have raced with the body of the murderess to a private house where the surgeon was to receive it.

RESTORE LIFE PLAN

There an attempt was to have been made to restore life by the injection of adrenalin chorine.

Warden Lawes referred the request for immediate delivery of the unutilized body to Albany for a ruling by the attorney general. He ruled against this breach in the usual procedure.

As a result of this ruling the plan fell through and prison physicians proceeded with the autopsy, not only on the body of Ruth Snyder, but of Judd Gray as well.

HOPED TO LAST

"Mrs. Snyder hoped for life to the last," Lonardo said.

"She was aware of my plan and walked to the chair in the belief that there was a chance to be revived after a few minutes of oblivion."

"She was derisive when first I told her of my plan."

"Yeah, but that chair kills you quick," she said.

"Later some hope came to her that she might be delivered from death. She knew what I planned to do with her body, but her family did not know."

"Excepting the physician selected to perform the revolutionary attempt, Mrs. Snyder herself was my only confidant."

WOULD BE LEGALLY DEAD

It was the contention of Lonardo that if such experiment had been tried successfully the state could not have placed its hands on Mrs. Snyder again.

Further, that though she walked the streets, she would have been legally dead.

Lonardo read out the text of the order for the body, which he sought to have approved by the warden. It was phrased on behalf of the mother and brother of Mrs. Snyder.

DRUG USED SUCCESSFULLY

He declared that ethical considerations prevented the giving of the name of the physician.

Numerous instances have been reported, he declared, in which adrenalin—which is an extract of sheep glands—has been used successfully in restoring animation in persons apparently dead. The most recent case being that of John H. Scott, of Montclair, N. J. who was revived after he had been lying unconscious, without perceptible heart beat, for more than seven hours.

COURT ACTION PLANNED FOR BOND RECOVERY

OAKLAND, Jan. 14.—J. Ralph, Richmond grain merchant, whose wife, Mrs. Beattie Ralph, is preparing legal action against the First National Bank and the Fidelity Casualty company, joined her today in a move to recover alleged privately-owned securities held by the casualty firm in connection with the alleged embezzlement of Emsey B. Smith, the bank's former auditor and bookkeeper.

Smith's alleged peculations may reach \$30,000, according to S. E. Biddle, president of the bank, who said he understood Smith was in custody pending the completion of an audit of his accounts, after which action would be taken against him.

Ralph, who lives with his wife at 2100 Santa Clara avenue, and is manager of the Richmond Feed and Grain company, said today he was unaware Smith had given Mrs. Ralph, former employee of the bank, a \$1000 bond as a birthday present and loaned her money to buy securities, but that as he had known Smith for years, he knew the transaction was "all right."

"I knew nothing about any gifts or loans," said Ralph, "but I will back Mrs. Ralph in any action to recover what is hers and purchased with her own savings. I have known Smith for some time. We visited them at their home on several occasions."

Wilbur Pierce, attorney for Mrs. Ralph, said today he would file suit in Alameda county on Monday to force the bank and the surety company to return Mrs. Ralph's keys and give her access to her safe deposit box.

Smith voluntarily in custody of private detectives in the employ of the surety company, is threatened with formal arrest for embezzlement as soon as the extent of his alleged speculations is known, according to Biddle.

"The bank is to be paid by the surety company probably today," said Biddle. "Smith was bonded up to \$30,000 and the loss probably will not exceed that figure."

Biddle revealed that all bank employees, including himself, were obliged to open their safe deposit boxes and account for the ownership of all valuables.

"Mrs. Ralph told me that Smith had given her a \$1000 bond when the surety company agents ordered the safe deposit boxes sealed," he said. "I told her the bank now had nothing to do with the case and she should tell what she knew of the case to those in charge."

Dog, Cat Poisoner Active In City

Dogs of cats and dogs in Richmond have been poisoned during the past three weeks. City Health Commissioner Charles R. Blake, stated yesterday, adding that the Richmond police are endeavoring to find the misguided individual who has scattered poisoned meat and fish about the city apparently forgetting that a child might pick up the contaminated morsel and eat it.

TWINS BORN

Mr. and Mrs. J. Davis of 535 Second street, became the parents of twins Friday the thirteenth. Both are boys and they were born at the Richmond Maternity hospital, weighing nine pounds each. The family now consists of nine children. Dr. M. Deininger Kaser was the attending physician.

Police Forces Called On To Break Up N. Y. Demonstration

BROOKLYN, N. Y., Jan. 14.—Charged by a squad of New York police with a mounted patrolman in the lead, 350 communists were driven away from the main gate of the Brooklyn Navy Yard to night.

They were staging a demonstration in protest against American intervention in Nicaragua, carrying banners and placards, shouting when the first group of the 3,000 civilian employees in the Navy Yard started to leave the yard at dusk this evening.

The demonstration was just getting under way when the police reserves arrived in response to a call to police headquarters.

HURLED INTO MOB

With the mounted man in the lead, his horse galloping at full speed, the police headed right into the mob breaking it up into small groups.

When the mob saw that the police were wrapping their nightsticks around their wrists in preparation for breaking up the demonstration and possibly a few heads they retired into the side streets and returned to New York to their headquarters.

The banners and cards were taken by the police and a few of those that were not ripped to bits and thrown in the gutter by the police read "Sandino wants peace with the American people," "don't fight for Wall Street," "American (Continued on Page 8.)

Report Given On Scales Of C. C.

MARTINEZ, Jan. 14.—Thirty three of 2,470 scales, inspected in Contra Costa county during 1927 were condemned, according to a report G. W. Andrews, sealer of weights and measures in this county has made to J. S. Caspy, chief of the state division of weights and measures.

Andrew's report shows that during the year, 2,177 establishments were visited; 1,559 measuring pumps were inspected and 573 were corrected; 2720 milk bottles and 7195 packages were inspected.

Life Certificates Given 4 Teachers

MARTINEZ, Jan. 14.—Three high school instructors and one elementary school teacher were today recommended by the Contra Costa Board of Education for the State Board of Education for life teaching certificates.

W. H. Hudson, Alhambra high school instructor, was recommended for a secondary certificate, Mrs. Annie Neff of Concord, Mrs. Susie Boyson of Pittsburg and Mrs. Rita Watson of Richmond, were recommended for the life elementary certificates. Mrs. Boyson was also recommended for a special certificate.

Hubby Liked Others Is Divorce Claim

MARTINEZ, Jan. 14.—Charges that her husband, Arthur Hughes, admitted associations with other women, used intoxicants to excess and absented himself from home almost every week end, are made by Mrs. Frances Hughes of Richmond, in suit for divorce she filed here today. They married in 1925 and have an eighteen months' old son, whose custody Mrs. Hughes is seeking along with an award of \$75 monthly for support. The suit was filed through Attorney T. M. Carlson.

DESCRIPTION HELD SAME AS CHILD KILLER

(By Universal Service)
FLINT, Mich., Jan. 14.—A man, answering the description of the torture-murderer of 5-year-old Dorothy Schneider, whose mutilated body was found Thursday in a creek five miles north of here, was arrested today.

He was seized at the rear of his home in Mt. Morris, a Flint suburb in which Dorothy lived and attended kindergarten, by Deputy Sheriff Roll Harrow. At the time of his arrest the man was busy changing the wheels of a four-door Dodge sedan, painted a robbin's egg blue of a model five or more years old.

KILLER TIED LIKE CAR

Such a car was used by Dorothy's murderer, when he kidnapped her while she was running home from school Thursday noon.

This suspect, whose name does not appear since the completion of the crime, has been locked up, like the others, in some outlying jail, the location of which is not made known by the authorities.

The suspects earlier taken, it is said, have been released, following scrutiny by Archie Bacon, father who aided the killer in extracting his machine from a mud trap.

Bacon and Sheriff Frank A. Green were mysteriously absent from Flint most of today. After their return, they viewed the latest prisoner. When the inspection was over Bacon explained to news paper men that he had been instructed neither to deny nor confirm an identification.

FEAR LYING

And Sheriff Green, frankly fearful of a lynching, insisted that in the interest of protection of his prisoner he must refrain from the present from talking about this, the most recent development.

It became known, however, that the man not only answers to the description of the killer, but that in his residence was found clothing such as Dorothy's murderer wore.

The wheels of the Dodge sedan, driven by the killer, were of the wood-spoke type. Such wheels were being taken off his car when the suspect was arrested today. He was substituting disc wheels for them.

Deputy Harrow, who made the (Continued on Page 8.)

Carillo To Appear On Charge

Marcel Carillo, 21, accused by Mrs. E. Herrero 24, of attempting to assault her in her Richmond home and threatening her with a knife, will be tried in the justice court of Judge A. A. Alstrom Monday morning on a charge of disturbing the peace Deputy District Attorney James F. Hoey announced yesterday.

Mrs. Herrero, who became hysterical after the alleged attempted attack and refused to eat, was charged with insanity. Her condition today was reported as improved and it was believed that with continued proper care she will regain a normal state of mind.

Lemos to Appear on Rum Count Monday

Pedro Lemos, arrested for violation of the Volstead act is scheduled to appear before Justice at the Peace Arthur A. Alstrom, for a preliminary hearing tomorrow morning. He has been reported as out on \$1000 bail and he will be defended by Attorney Will S. Roberson.

Yankee To Wed Hindu

DISREGARDING the advice of friends and the American consul at Bombay, Nancy Ann Miller, of Seattle, daughter of an Alaskan gold miner, will wed tomorrow Maharajah of Indora, millionaire Indian potentate. It is reported. The two are shown together.

Local Man Admits Forgery, Will Ask For Probation

MARTINEZ, Jan. 14.—Admitting to his preliminary examination before Justice of the Peace Frank Glass that he forged the name of a fellow employee and war time "buddy" to a check and posed as E. H. Gifford, a Crockett merchant, John R. Hightower, 30, of Richmond smelter worker at Selby, is in the county jail today awaiting trial in Superior Court on a charge of forgery. Hightower has indicated that he will plead guilty and seek probation.

Hightower admitted that he forged the name of R. G. Wood

to a check for \$75 made out in the name of E. H. Gifford and then deposited the check with \$40 in cash in the Martinez Branch of the American Trust Company. Then he drew checks against the account. Hightower's alleged criminal action was discovered by Stob Teal, bank manager, who caused his arrest.

"I needed some money" was his statement on the witness stand in Judge Glass' court.

Hightower failed to deposit bail of \$1000 and was sent to jail to await trial.

Twin Brothers Arrested For Plundering Utility Property

MARTINEZ, Jan. 14.—Arrested yesterday afternoon during investigation of the burglarizing of a Lafayette lunch counter, Albert Nunes and Alfred Nunes, 16, twins and sons of John Nunes, Lafayette rancher, are being held at the county jail here today on burglary charges following alleged confessions of their looting of the office and cabins of contractors and employees at the Lafayette dam of the East Bay Municipal Utility District.

Arrest of the youths by Deputy Sheriff J. M. Joseph and R. L. McNamara, Constable Harry Stow and Traffic Officer Ed. Keefe followed the discovery by the officials of several watches, gold rings, \$600 in Russian bonds, coats, tools and other articles cached in the basement of the

Nunes home. According to Joseph the youths attempted flight up a creek bed but were overhauled by Keefe. Although they have admitted looting the office and cabins at the dam the youths deny any implication in the burglarizing Thursday night of the Lafayette lunch counter of Mrs. Ida Bennett. About \$100 worth of cigarettes, candy and food were taken.

The Russian bonds, valued now far below the \$600 they represent, were found to belong to an employee of the dam builders, whose cabin was looted in December.

Officers became suspicious on questioning the youths yesterday on the Bennett burglary and demanded entry into their home. When the youths attempted flight they were arrested. Their alleged confession followed.

Dr. Catton Will Be Speaker For Lions

The Richmond den of Lions will have as its speaker next Tuesday, Dr. Joseph Catton, well known psychiatrist, according to an announcement made yesterday by Chief of Police Dan Cox who is the chairman of the day.

Rev. Gillespie At 1st Presbyterian

The speaker at the Sunday evening services in the First Presbyterian church tonight will be Rev. William B. Gillespie, D.D., pastor of the Calvary Presbyterian church of Berkeley. Rev. Earl W. Haney, local pastor, is to speak in the Berkeley church and the First Presbyterian choir under the direction of S. A. Marshall will present the musical program.

Dr. Gillespie is also bringing his choir with him and they will sing selections from "The King All Glorious."

TOM MIX FILM TO BE SHOWN AT RICHMOND

Tom Mix, ace of the Western stars, comes to the screen of the Richmond Theatre today in "The Circus Ace," a colorful drama of the West based upon the experiences of a plainsman who is called upon to render aid when a beautiful performer is in trouble. Mix and Tony, projected into some of the "toughest situations imaginable" emerge victorious only after hard and grueling contacts with some of the toughest characters Mix has ever faced before the camera. Natalie Joyce, a charming Southern girl, is seen opposite Mix, and a trained kangaroo produces many mirth-provoking situations. Ben Stoll directed the production from a scenario by Jack Jungmeyer. Other film features include "Jane's Hubby," a roaring comedy; and a Grantland Rice "Sportlight."

Novarro Assumes Role Of Don In "Romance Road"

Ramon Novarro in the role of the adventurous Spanish don comes to the California Theatre Tuesday in "The Road to Romance," his latest starring vehicle for Metro-Goldwyn-Mayer. The film is an elaborate pictorialization of Joseph Conrad's famous sea story "The Road to Romance," and provides Novarro, in its shabaz-bucking hero, one of the most colorful fiery roles of his career. As the courageous youth of an aristocratic family he sails from Madrid for Cuba to rescue his cousin, Serafina, who is about to fall into the hands of Don Balbasar, a political rogue. It is in the days when piracy flourished upon the Caribbean and the West Indies were a hotbed of intrigue. He is captured by pirates, imprisoned, escapes through the power of his quick wits and eventually finds the girl. The two immediately fall in love and danger and thrills follow each other in breathtaking suspense. The picture is dramatic in the extreme and boasts a love story of unusual appeal. A remarkable cast supports Novarro, headed by Marceline Day as the charming Serafina. Roy D'Arcy plays the part of Balbasar. Other well known players are Marc McDermott, Bobby Mack, Jules Cowles, Otto Matieson and Cesare Gravina. John S. Robertson directed.

California Bills Excellent Variety Program For Today

A real variety is displayed in the five act vaudeville program that holds the boards of the California stage today with an interesting picture and short reels in addition. Two University of California students High and Dougherty by name have a commendable vein of originality in their offering of dance eclectics that makes their routine away from any other steppers. The Caruso of the Ferries, D. Hunter with his robust tenor voice and happy personality is always a big favorite. A neatly constructed act of song and dance varieties introduces Ivan and Co with Dolly Ray and Ted White a trio of act.

Young folk full of pep and a repertoire of popular and up to the minute hits.

"Happenings on the Street" with Keith and Parker, the former a female traffic cop and the latter a black "mammy" is replete with laughter. Their smart repartee and topical chatter is well worth while.

In their farewell appearance in America for many months Snell and Vernon presenting an artistic diversion do some feats of acrobatics and gymnastics that are thrilling and intricate. An upside down somersault finishing suspended by the toes from a trapeze executed blindfolded is one of the sensations of the act.

SOPHISTICATED PICTURE SEEN AT CALIFORNIA

Aileen Pringle, whose reputation for the screen portrayal of sophisticated roles is world-wide, will be seen in a new light with the showing of "Body and Soul," a Metro-Goldwyn-Mayer picture to be run at the California Theatre today.

The elegantly dressed Aileen of "Three Weeks," "His Hour," "Soul Mates" and other productions, will be shown as a Swiss peasant girl, young, sparkling with vivacity and innocence. Throughout the picture she dresses in native costume and at no time is she seen in the up-to-the-minute wardrobes which she usually wears.

Her role calls for highly dramatic acting and offers opportunities which she has seized upon in a manner which will show her as a new Aileen Pringle.

Millions have read this vivid love drama of the Swiss Alps and know the opportunity it affords for dramatic action. Although the cast is confined to only four principals, each is extremely vital to the story and each plays a part almost of equal importance.

Lionel Barrymore has the role of the derelict English doctor and T. Roy Barnes has the comedy character role of the Swiss postman, whose antics precipitate a crisis in the lives of three other people. The featured male lead is taken by Norman Kerry, who appeared opposite Lillian Gish in "Annie Laurie."

The screen story, based on the Katherine Newlin Burt story, was prepared by Elliott Clawson and the picture was directed by Reginald Barker.

Other features include "Movie Hound," a Cantoo comedy; current news events; and five big acts of road show vaudeville.

with the same girl. She tells the lawyer that he must give up his practice, as he is thwarting the work of the law. The district attorney in his cleanup campaign, arrests a certain gang leader, Gunner Gallagher, and the lawyer feels it is duty to save him. Gunner is freed the night the lawyer announces her engagement to the district attorney.

The girl's father, fearing that he will be revealed in his true character, gives an order that means the death of the district attorney. It is carried out and the criminal lawyer seeking to avenge his friend, accepts the former's office.

The new district attorney starts a personal cleanup drive by finding the murderer and giving him the beating of his life in a bare fist battle. The slayer is arrested.

The murderer's sweetheart goes to the capitalist and threatens exposure if he doesn't get her friend out on bail. She tells the district attorney if he fails to grant the slayer bail, she will tell the world what she knows of the capitalist, which means social crucifixion for the girl he loves.

Then comes one of the high dramatic points, when the capitalist commits suicide and his daughter blames her sweetheart.

Throughout the picture, powerful drama is enacted and the tension doesn't let down until the final court tilt and each is in love indeed.

Brilliant Clara In Newest Role At California

Clara Bow has stepped into another class by herself. The red-haired Paramount star, who skyrocketed to fame in "It," "Rough House Rosie," "Hula" and "Mantrap" is one motion picture celebrity who will never see a collection of baby, childhood and school girl pictures of herself in a magazine.

For Clara has in her possession only one photograph made before she had grown to girlhood.

The picture was taken when she was 2½ years old and shows Clara wearing a flaming lace bonnet, sitting in a baby buggy holding a large woolly bear.

Miss Bow's parents are one family which did not think that their daughter would some day become a great actress.

So Clara who comes to the California Theatre next Wednesday and Thursday in "Get Your Man" had but one baby picture taken. She doesn't even have any other pictures of herself until after she had ceased wearing hair ribbons. Clara did not entertain a thought of being an actress until she was seventeen years old. She wanted to be a beauty contest winner or offer, and the balance of the contest and a motion picture contract.

"I was the most surprised person in the world," she says.

COSMOPOLITAN CLUB PLANS FOR VAUDEVILLE

A full evening's bill of vaudeville has been selected by the Cosmopolitan club for the night of January 28 in Roosevelt high school auditorium, according to Mrs. Zella Chapin, chairman of the committee in charge of the entertainment.

Professional and local talent and also an interesting travelogue will round out the bill. Laura, a mental marvel, who is billed as "The Woman Who Knows" will make her first appearance in the west on this occasion. After her engagement here, she will leave to fill several large engagements in the south. All questions presented by the audience will be answered during the performance.

The Richmond Musical Club has been busy rehearsing the past two weeks for their numbers on the program. This organization will present solos and chorus numbers.

Half the proceeds secured from the performance will go toward maintaining Sunshine Camp in Marsh canyon. Tickets can be secured by any member of the Cosmopolitan club or by phoning Mrs. Chapin at Richmond 1167.

Grant P.-T. A. Plans Luncheon On January 26

Plans for a luncheon and program to be given at the Hotel Carquinez January 26 and a theatre party in April were planned by the members of the Grant Parent-Teachers association at their first session of the year held yesterday afternoon at the Grant school. Mrs. W. V. Keltz district thrift chairman and local council thrift chairman will be in charge and the proceeds will be used for the benefit of the service fund.

At the meeting held yesterday, Mrs. C. R. Blake, council president made an interesting speech and Mrs. W. V. Keltz gave an excellent report of service work accomplished during the past term. Over six hundred garments were made, repaired and distributed and Christmas cheer given to more than one hundred persons. The association expressed its appreciation to Mrs. Anna Willis, school nurse, the Boy Scouts, Thomas Nee, and Harman Jette, who aided in delivering the boxes and the Allied Veterans council for its donation of candy, toys and other articles, to the mothers of the Grant school, to St. Edmund's guild and the Presbyterian Aid society, and to the many others who assisted in the relief work.

Mrs. Benjamin Banner, president of the Grant Parent-Teacher association, took charge of the meeting.

Golden Wedding Day Of Calvin Riches Is Celebrated

One hundred and fifty friends and relatives of Mr. and Mrs. Calvin Rich of 424 Thirteenth street attended the golden wedding anniversary celebration of the couple last night in the parlors of Memorial hall and proffered their congratulations.

Many of those present attended the thirtieth anniversary held in Fresno.

On a table banked with bouquets presented to the couple, gold gifts in keeping with the anniversary were piled and later presented by George L. Wilson.

A musical program consisting of piano solos by Miss Verna Parks, Stanley Bagnel, L. Del hotel and Frances Poole and vocal solos by Harold Mrs. W. O. Sparks, Mrs. C. D. Whitcomb, Robert Bromley and Charles Cannon was presented. A clever skit, portraying the girl of 1873 and 1923, was presented by Mrs. Robert Huston and Mrs. J. C. Sutherland.

Following the program, refreshments were served in the banquet room. A wedding cake, bride and groom graced the table of the honored couple and tulip cups and candles in golden shades decorated the other tables. A huge gold bell was suspended from the ceiling.

Mr. and Mrs. Rich are the parents of Robert V. Rich with whom they make their home. Rich is a retired Santa Fe conductor and many of those present last night are also Santa Fe employees.

EDITH WALKER HEARD OVER RADIO KYA

Miss Edith Walker, well known local harmonica player, rendered several popular selections in an old fashioned program over radio station GYA from 8 to 9 o'clock last night. Miss Walker has been heard a number of times over radio station KTAB and has won recognition among radio fans.

COLIN SHANKS, BERKELEY GIRL ARE MARRIED

The wedding of Carmel Walker, daughter of Mr. and Mrs. C. Compton of Berkeley and Colin Shanks of Richmond took place at eight o'clock Friday evening in the home of the bride's parents. The wedding was a quiet affair and the ceremony was performed by the Rev. W. B. Gillespie of the Berkeley Presbyterian church at the home of the bride, 1910 Milvia street in Berkeley. Only the families and immediate relatives of the bride and groom were present. The bride wore a simple traveling costume, and following the informal reception and wedding supper the couple left for a honeymoon at Cape-by-the-Sea.

The bride and groom will make their home in Oakland when they return in a fortnight. Colin Shanks is the son of Mr. and Mrs. T. R. Shanks, 511 Nevil avenue and is well known here, having attended the local schools. Shanks was a student of chemistry at the University of California and was a member of the Beta Kappa fraternity. He is a member of the Alpha Chi chapter of Kappa Alpha Pi in Richmond. Shanks has been an employee of the Bank of Oakland for two years.

CLUBS ELECTS PENNSYLVANIA NEW OFFICERS

A delightful six o'clock dinner was held last night by the members of the Pennsylvania club at the Richmond clubhouse.

Following the dinner an election of officers took place with the following results: Mrs. T. J. Mickey was re-elected president; C. L. Bergstresser will be the new vice-president; Mrs. C. L. Baughman will be the new secretary and Mrs. C. L. Bergstresser will be the treasurer. Mrs. Mickey, the old and the new president was presented with several beautiful salad forks in appreciation of her work for the past year in behalf of the members.

The next meeting will be held on Saturday, February 11, at the Richmond clubhouse.

Many Present At Installation of Pythian Sisters

There were about 100 present at the installation of officers held by the Contra Costa Temple of Pythian Sisters No. 113 in Brotherhood hall. District Deputy Grand Chief May Mainwaring, Grand Junior Ruth Leece, and Past Grand Chief Florence Flierer, all of Oakland, were the installing officers.

The officers seated were: Mrs. Myrtle Carlile, past chief; Mrs. Effie May Reynolds, most excellent chief; Miss Mary Lee Reynolds, excellent senior; Mrs. Maud Grice, excellent junior; Miss Lina Huston, manager; Mrs. Frances Michel, protector; and Mrs. Evelyn Miller, outer guard.

Mrs. Myrtle Carlile, the past chief was presented with her certificate and her jewel of office by Mrs. Frances Michel in behalf of the members. The officers presented her with a lovely luncheon set, also. Other officers received flowers and little gifts of appreciation for their work of the past year.

A banquet was served at the closing and the following committee was in charge:

Mrs. Anna Bowyer, Mrs. Evelyn Miller, Mrs. Audrey Delaney, Mrs. Evelyn Julierat, Mrs. Louise Mano and Mrs. Botilda Cook.

Man Asks \$5,000 For Crash Hurts

MARTINEZ, Jan. 14.—Injured December 4 when he was struck down in El Cerrito by an automobile allegedly driven by U. Bonelli, Henry Vitt, of Richmond, today instituted suit here for \$5,000 damages against the driver of the car.

Vitt declares that he was hit when Bonelli drove his machine at an excessive rate of speed in too close proximity to a street car he was attempting to board at San Pablo avenue and Stockton street. Vitt says he suffered fractures of both knees, fractured left wrist and lacerations about the body.

The suit was filed through Attorney Wilbur Pierce.

HUDSON-ESSEX AGENCY UNDER C. D. MONETT

With auguries never before so favorable for the continued success of Hudson-Essex, C. D. Monett has returned to Richmond where he will handle the agency for the car at the salesrooms at Thirteenth street and Macdonald avenue. Monett, who was formerly agent for the Chevrolet, is well known in this city where he is universally liked.

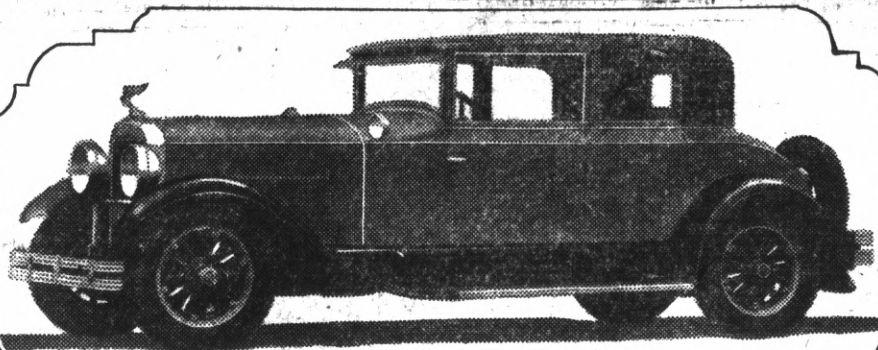

He returns at a particularly auspicious time since the new models of Hudson-Essex were placed on display yesterday, fine examples of the auto manufacturer's art. The company which he heads will be known as the Monett Motor company, Inc.

All of the modern features essential to a motor car and many other exclusive features are found in the new models. They drew the attention of the crowds which recently attended the auto show in New York, and are properly deserving of the word "development" which has characterized the progress of Hudson-Essex since the cars were first manufactured.

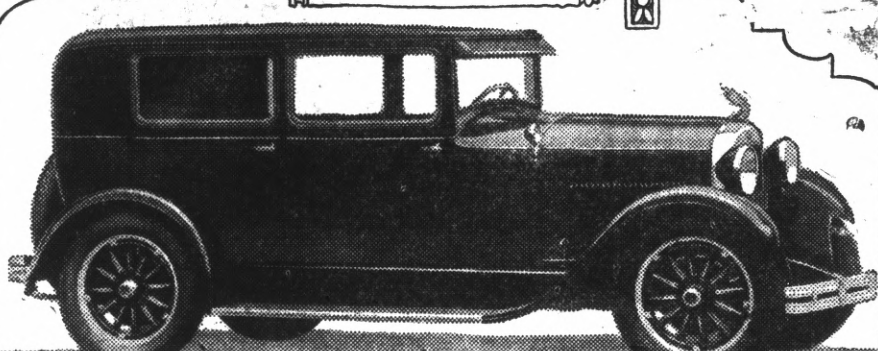

In the new models the radiators are found to be considerably higher, with original vertical shutter. Lamps are of Colonial design, fenders full crown. The interior is sumptuously furnished and roomier than in previous models.

FIVE PASSENGER SEDAN

Above is the Hudson Super-Six Victoria, an attractive new car type introduced this year. Below is the Essex 6-cylinder, 4-door Sedan, expected to be one of the company's most popular models.

Advanced style is the outstanding change in the new Hudson-Essex line of cars introduced by the Monett Motor Co., local Hudson-Essex dealer.

HUDSON SUPER-SIX
RADIATOR EMBLEM

But though these new cars, as seen yesterday, are strikingly improved in style and beauty, Hudson-Essex has kept a traditionally keen eye on fundamentals of value, in fact the price on a highly important model—the Essex 4-door sedan—is reduced \$40. Hudson-Essex presents this as the only 6-cylinder, 4-door sedan with a list price below the \$800 level. On other cars, some prices remain with no change; others are advanced.

Essex is now equipped with Bendix 4-wheel brakes and a heavier anti-friction steering gear. Hudson frames have two tubular cross members. Essex, as well as Hudson, now has the Electro-lock anti-theft device. Both cars continue their high-compression, high-efficiency motors. These are said to operate smoothly on any type of gasoline, and through intensive development and through even smoother and more powerful performance.

Hudson-Essex is introducing this line of cars after completing the most successful year in its history, with around 250,000 six-cylinder cars manufactured. This year's styles carry forward the principles of a year ago, adding beauty and style to the well-known Hudson-Essex standards of value and utility. The present daily total of cars built is the largest, for this time of year, in Hudson-Essex history. The whole Hudson-Essex organization is highly confident that 1928 will establish for it a new standard of success.

Big Reception Accorded To New Chevrolet

The greatest reception in the history of the automobile industry has been accorded the 1928 model Chevrolet, according to reports received from more than seven thousand dealers in all parts of the United States. The "Bigger and Better" Chevrolet, announced during the Christmas holidays, when put on display for the first time on the first day of the year, attracted hundreds of thousands of motor car buyers into the Chevrolet salesrooms and resulted in so great a number of purchases that President W. S. Knudsen of the Chevrolet Motor company ordered a twenty percent increase in production by the eleven Chevrolet factories in the United States and Canada.

The complete showing of the new line on the first day of the new year with immediate deliveries is believed to be a record in the automobile industry. Every dealer in the United States was supplied with a full line of cars and there was no vexatious delay in deliveries.

CROWDS SEE MODELS

Visitors to the Chevrolet salesrooms in New York city came in at the rate of one thousand an hour. One hundred and fifty thousand people saw the new Chevrolet line in the first two days in Chicago and Detroit reported 75,000 persons in the first twenty-four hours. Snowstorms, blizzards, or extreme cold weather did not interfere with the enthusiastic reception throughout the east. On the Pacific Coast, Los Angeles reported more than 65,000 persons checked in the various salesrooms on the first two days of 1928; San Francisco reported more than 50,000 persons and Portland, Seattle and Spokane tallied a proportionate number of enthusiastic visitors.

The greatest spring demand in Chevrolet history is indicated by the present interest manifest throughout all parts of the United States. The reduction of prices in the face of improvements which have never before been available for cars in this price class has taken the country by storm. The four-wheel brakes, larger bodies, increased wheel-base and power, together with the backing of the General Motors Laboratories, and extensive engineering tests on the General Motor Proving Grounds make the Chevrolet line of 1928 the outstanding achievement of the automobile industry.

12 FACTORIES OPERATED BY CHEVROLET

The automobile industry has grown to such proportions that it is almost inconceivable for the human mind to comprehend the magnitude of the field. The Chevrolet Motor company alone operates twelve great factories with a total floor space of 4,432,524

square feet. The Chevrolet cars turned out this year required 7,000,000 incandescent light bulbs and 2,500,000 square inches of rubber matting. Eighty million square feet of upholstery material were required to cushion the products turned out this year.

Chevrolet's production is sufficient to supply a new automobile each working day to every family in a city of 20,000 and the Chevrolet freight bill for the current year will be in excess of \$32,000,000.

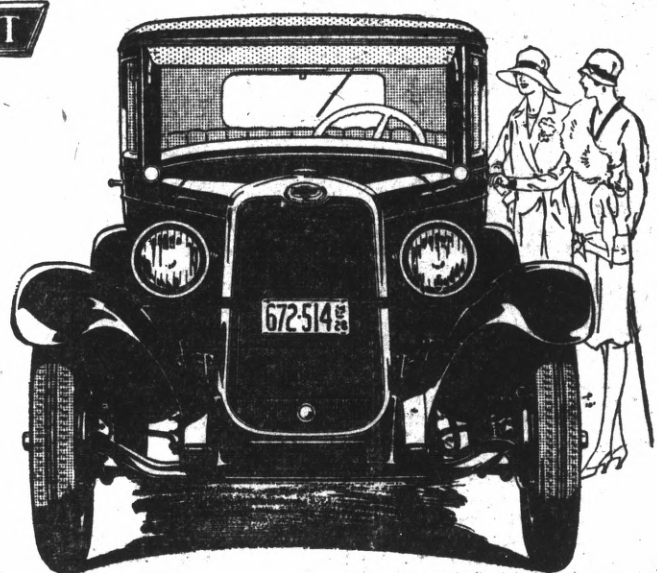

Two hundred forty-five thousand freight cars, equal to more than 4000 trainloads of sixty cars each, were required to transport the Chevrolet automobiles from

the assembly plants to the dealer.

Two hundred and fifty thousand tons of coal are required to run Chevrolet factories for twelve months and approximately 210,000,000 kilowatt hours of electricity are consumed.

More than 100,000 persons are employed in the production, sales and service of Chevrolet cars and there are nearly 10,000 authorized dealer establishments.

More than 4500 Chevrolet motors are built every day, an average of one motor every fifteen seconds and sixty-five carloads of these motors are sent out to the various assembly plants every twenty-four hours.

THE CHAMPION AND HIS BUICK

Armand Emanuel, Pacific Coast champion light heavy-weight boxer, and his Buick brougham, with which he tours the country in his successful pugilistic campaign.

BOXER CLAIMS BUICK BIG AID IN VICTORIES

WILLYS CHIEF STARTS TOUR OF TERRITORY

When Armand Emanuel, crack San Francisco boxer and champion of the Pacific Coast light heavyweights, prepares for his ring contests his Buick town brougham is just as important a part of his equipment as his boxing gloves, punching bag or other pugilistic paraphernalia according to C. C. Kratzer, local Buick dealer.

Emanuel, who for the past two years has reigned "king of sock" on the coast, and is considered by fight critics throughout the country as one of the best in his division uses his Buick more than his boxing gloves, he recently told a Buick executive.

"No one can imagine how useful the automobile can be to a boxer. But without my Buick I would be entirely lost. It is my constant companion wherever I go," said the young fighter.

"Every morning, rain or shine, I must do road work to keep in condition and my car must do its share. It takes me to the scene of my afternoon training and wherever I am scheduled to appear in the ring."

PRaises BUICK

"Recently I drove to Los Angeles for my fight with Vito Doman and a short time previous to that I made the trip to Culver City, where I fought George Trenkle. A portion of the credit for winning both of those fights I attribute to Buick. On those trips, like others I have taken, I was always at ease. I was certain of reaching my destination with speed, comfort and safety."

"In the vernacular of fighters I might add that Buick certainly packs plenty of wallop, comes back strong after a beating and is sure fast."

The young champion, who recently was admitted to practice law in California, has won all of his fights in the professional prize ring. He was formerly amateur heavyweight champion, is a prominent clubman in San Francisco and at the conclusion of a contemplated eastern boxing campaign this year plans to forsake the squared arena for his law practice and his Buick.

Police Offer Opposition To Use Of The Word 'Cop'

The terms "motorcycle cop" and "traffic cop" are obsolete and undignified, and do not properly apply to the men in charge of traffic control on highway and city streets. Such was the formal declaration of the California Association of Highway Patrolmen at their annual meeting in Los Angeles.

Nor is the traffic officer a producer of revenue, a collector of debts or a plaything of politicians, according to A. R. Heron, chairman of the State Board of Control who was one of the principal speakers at the convention.

With the finances of the organization in excellent shape,

a \$500 death benefit for all officers killed in actual discharge of their duties was voted by the membership.

Among the speakers were D. F. McGarry, president of the Los Angeles Chamber of Commerce; Wm. Bonelli, president of the Los Angeles Council and Judge Chas. W. Fricke of the Superior Court of Los Angeles County.

San Francisco was chosen as the convention city for 1928.

Details

of Interest
to
all Motordom

THE new Hudson and Essex Super-Sixes come to the Automobile Show in completely new and arresting design, strikingly in advance, and at once brilliantly original and authoritative.

The full unity of their beauty is a swift impression, impossible to dissect; and yet a detailed study of the advancements is of interest not only to Hudson-Essex owners, but to all motordom.

Newness begins at the very front, in higher radiators on both Hudson and Essex—an effect that is further heightened by vertical radiator shutters. The motorometer has been removed from the front to the dash, and is now replaced by handsome radiator ornaments.

Lamps are of Colonial design, and are of the parabola type controlled from the wheel. Saddle lamps of the same type are mounted on the cowl by means of a crossing nickel-plated band. Fenders are of new design, full-crowned and headed along the edge.

All bodies are lacquered in duo-tones, and carry a moulding all the way around, and out the cowl and hood to the radiator.

The front pillars are trim and narrow. In standard models the visor is the military type.

All Essex models are larger and roomier than ever before.

The instrument board is finished in a polished ebony. Set into this background is the grouping of instruments, including the ammeter, oil and gasoline gauges, speedometer, and motorometer, all indirectly lighted.

The handsome new steering wheel has a steel core surrounded by ebony-black hard rubber and carries light control, hand throttle and horn button.

Hudson custom-built bodies are the Victoria, the Landau Sedan and the 7-passenger Sedan. In all of them, the front body pillars are notably slender. The windshield frames are nickel-plated, so that the fronts of all three cars are quite distinctive and striking.

Body construction is of aluminum panels over a frame of selected hardwood. Lines are original and striking. Mouldings and color panels are employed to bring about distinctive effects. The rear quarters are finished in long grain landau leather, colored to match the upper body.

Four-wheel brakes are, of course, standard in both Hudson and Essex.

A MERRY LITTLE MERRY-GO-ROUND

By Pete Williams

GIRL QUINTETS WILL TANGLE ON MONDAY

The Espee Apprentice basketball squad will be unable to come to Richmond Monday night to meet the Santa Fe Te Walkers, W. L. "Doc" Seawright, director of the local basketball league announced last night. A girl's game is being arranged in its place, Seawright added.

The big game of the evening is expected to be between the Stringer Smoke House gang and the McRacken Clothiers. The gang is in first place without a defeat on their standards while the McRacken team is hugging second place for all its worth. Although the Stringer team has been showing far superior speed, team-work or what have you, there is a bare chance, and very, very, bare, that the McRacken team may chance through with a victory. But then again there is a much bigger chance that the Stringer bunch will make it a ninth straight victory—or is it the tenth?

In a preliminary game the Ben Malik team will gallop around with the Oakland Y. M. I. Little is known of the Oakland team, but according to reports received here it has one of the strongest cage teams in the bay regions. If this report is true it is easy to see that the Style Leaders will have to put up a better fight than when they defeated the Tie Walkers last Thursday.

Any ways it will be a good dime's worth of basketball. Come one, come all. Refreshments will not be served.

FAIR OR FOUL

A letter from Benny Bengough, the little Yankee catcher, brings the news that for the first time in two years his right arm hasn't been acting like a baby with the colic during the cold winter months he spends in Niagara Falls, his home. Neuritis, settling into Benny's arm and shoulder after the finish of the 1925 season, has kept him out of the first string catcher's job for the past two seasons, and though the most varied treatment was given it, it persistently refused to yield.

Towards the latter part of last season Benny began to get back behind the bat and the stiffness had worked out of it sufficiently to let him catch his first World's Series game, though he has been with the Yanks since 1923. His arm was fine when the season ended, and he reports that instead of stiffening up again, as

San Pablo Plays Fruitvale Eagles

The San Pablo Garage team, holders of second place in the Maxwell Class Double A, winter league, meets the speedy Fruitvale Eagles on the San Pablo grounds this afternoon at 2 o'clock.

Batteries for the Garage men will be Butt'sbach and Murphy on the mound and Mo'loza holding the catchers mitt.

Both teams have had a vacation of two weeks so that other teams in the league could catch up on their schedules. The prospects are good for the San Pabloans easing the New Process Laundry team out of first place in the league.

The following men will in all probability see action today: Mo'loza c; Butt'sbach and Murphy, many visitors present, among them being Mrs. Pritchard of Grass Valley, who was the first secretary of the aid.

It did during the past two off-seasons, it has remained in such good shape that he hopes to be able to hop right back of the bat after a little preliminary limbering up under the Florida sun this spring.

If Bengough can recapture the form that made him the best fielding catcher in the American league in 1925, the Yanks will be further fortified, for though Johnny Grabowski is a promising young catcher, and did a splendid job for the Hugen last season, the catching department of the Yanks isn't quite up to the standard that prevails at the other positions. If Benny's arm is right he will come as near to being the best catcher in the American League as you can find, and with Grabowski and Pat Collins to do relief duty the Yanks would be handsomely fixed behind the plate.

CAL ADOPTS NEW SYSTEM OF BASEBALL

BERKELEY, Jan. 14.—Carl Zamloch, the former big leaguer coaching the University of California baseball team, yesterday started local baseball circles with the announcement that his team will try a new and entirely different system of play during 1928. Zamloch's proposed innovation is so startling that few of the "Bears" opponents will probably agree to contests on its basis, but one contest to be played under Zamloch's new rules has already been scheduled.

Stated in few words, Zamloch's idea is this: When the bases are clear, a batter may run to either first or third, depending upon his own judgment. When one man has started around the bases, going to third first, then the rest of the team must follow his lead, and continue to use third as first until the bases are clear.

Zamloch offers many arguments in behalf of this scheme. "It is common knowledge that baseball is losing its science due to the five ball giving infielders 'less work,' he says. "By using third optionally, the infield would be kept on their toes all of the time. This, in turn, would put some of the science back into the game."

Zamloch's second argument is that at the present time the left handed batter has the best of the bargain when it comes to running to the initial bag. A left-handed hitter is at least two paces closer to the bag than a right-handed slugger and is also in a position to run after he has finished his swing at the ball.

On the other, hand the right-handed batter is off balance and often sees the infield pick up the ball before he gets started on his dash toward first. By using third as first optionally the advantage would be off-set.

NEW BOOKS IN CIRCULATION AT PUBLIC LIBRARY

Many new books have been put in circulation at the local library, according to Miss Nora McNamara, librarian.

THE COMPLETE AIRMEN—Baker. This book has been added to the library in response to continued calls for a technical book on flying. Beginning with three chapters on the mechanic and theory of flight, it takes up the airplane and explains the principles of construction in detail. The engine is tested quite fully and there are additional chapters on flying, aerial navigation, aerodynamics and buildings, effects of altitude and the weather.

OFFICE ETIQUETTE FOR BUSINESS WOMEN—Parker.

A little book on personality and courtesy; on habits which denote the well-bred or the ill-bred, and on all phases of office etiquette as practiced by the well-bred business woman.

PAGES FROM MY LIFE—Challapino.

"The great Russian singer tells of his life from its beginning in poverty in a little Russian village to his triumphs with the Metropolitan opera company. The story of a romantic career told with simplicity and zest."

HISTORY OF THE ANCIENT WORLD—Rostovtzeff.

A two volume history for the general reader and not a text book. The book is written from the economic and social aspects and the many illustrations along give the reader a vivid picture of the various civilizations. Volume one covers the Orient and Greece. Volume two is devoted to Rome and is said to be the best one volume history of Rome yet written.

HYGIENE OF SEX—Gruber.

This book is highly recommended as a frank and sage discussion of the subject.

ACROSS ASIA'S SNOWS AND DESERTS—Morden.

William Morden, who is connected with the American Museum of Natural History, went to Asia to hunt the Orin pole, those remarkable sheep first reported by Marco Polo seven hundred years ago. He and his party endured torture and were close to death, but they came back with what they went for. Their trip is regarded as one of the great journeys of Central Asia.

LET ME FIX IT—Southworth.

A handbook of brief, clear directions for saving time, money and nerves in housekeeping, general repairing, tinkering, caring for wardrobe, cooking, gardening and other usual and unusual daily tasks. (Subtitle).

PHYSICAL FITNESS IN MIDDLE LIFE—Hornbrook.

A book which may be quickly read and its teachings easily followed by those interested.

HOME, A NEW ZEALANDER'S ADVENTURES—Mulgren.

How England impressed a middle-aged Colonial who recently made his first visit "home."

CASPER COLLINS—Spring.

Here are the life and exploits of an Indian fighter of the sixties as told from the letters and papers of Casper Collins. Casper Collins went to Wyoming with an Ohio cavalry regiment in 1861 and remained there until his death in the Platte Bridge fight with the Indians.

THE ROAD TO ROME—Sherwood.

A play based on the real reason for Hannibal's turning aside from Rome, instead of destroying it as he had intended. A splendid piece of dramatic work which had a successful run during the theatrical season of 1926-27.

THROUGH EUROPE ON TWO DOLLARS—Schonmaker.

Written by an experienced traveler.

Whiteslavers Bootleggers Since Passage Of Mann Act According To League Report

GENEVA, Jan. 14.—"Since the passage of the Mann Act and the closing of special houses in New York and most other American cities, white slavers have gone in to other kinds of business, such as bootlegging or even something respectable."

This is the outstanding fact contained in the American section of the report of the special body of experts on Traffic in Women and Children operating under the auspices of the League of Nations.

This revised and confidential report shows that white slavery continues rampant in most countries of Continental Europe and in Central and South America, but that there is very little traffic in the United States, thanks to the strict administration of the Mann Act.

Under the heading of "Internal Conditions in Relation to Traffic," the report says that as regards public order and the suppression of immorality, better conditions have existed in those portions of the country which have been settled longest and in which public opinion has been formed. On the other hand, the conditions in the dominant frontier or newer communities where young unmarried men predominate have been and sometimes long remained unsatisfactory. Older cities, such as Detroit and Los Angeles, which suddenly doubled and tripled in size because of the automobile, motion picture or oil industries, also took on temporarily many of the conditions of frontier communities.

WOMEN'S COURT RECORDS

The report points out that as women are not registered in the United States, a study was made of records of the Women's Court in New York city, 40 per cent of whose population is foreign-born.

The records showed that from 1,200 to 1,400 women and girls of all nationalities are convicted every year for various offenses relating to immorality and that 25 per cent admit foreign birth. This is regarded as an underestimate, some women concealing their origin for fear of deportation, and the investigation puts the percentage of such foreign born women at 47.

In regard to interstate traffic, the report shows that owing to the strict State laws and to the wide interpretation given to the definition of traffic in women there is no large city and very few small ones in the United States into which loose women can be brought with any certainty that they will be able to work for a sufficient period to make it worth while for traffickers to incur the expense of transporting women from State to State.

Dealing with what is called "In coming Traffic," the report says that while conditions as to laws, law enforcement and administrative machinery which exist in New York are not the same in all large cities, there is no important variation in any of the cities in the proportion of foreign loose women to foreign-born residents.

DETROIT AS EXAMPLE
"The city of Detroit may be taken as a good example. It is very close to the Canadian border and when studied in the winter of 1926 conditions as regards immorality were so favorable that many women from other parts of the United States had

SWIFT VENGEANCE will overtake the Central American rebels who have slain American marines, these veterans swore before leaving barracks at Quantico, Va., for service against the guerrillas.

OUTGOING TRAFFIC

In regard to what is described as "Outgoing Traffic," the report says the United States makes little or no effort, officially or unofficially, to prevent its young women and girls from migrating whenever and wherever they wish. It adds:

"The Secretary of State has the right to refuse a passport to any citizen in its discretion. In practice this discretion does not appear to be exercised for the moral protection of women and girls going abroad, or for the prevention of the migration of loose women and whiteslavers. On at least one occasion, however, the New York Passport office advised young women against going to certain Central American cabarets. In particular, no apparent effort is made to verify the statements as to a girl's reason for leaving the country contained in her application for a passport, nor is there any list of such reasons which is stated to be unacceptable to the Government."

"There are no requirements that work contracts should be vouched for by American consuls at the points of destination, as a preliminary to the issue of passports, as is required in a number of European countries. There is no licensing or supervision by the Federal authorities of employment agencies, which provide employment abroad for Americans."

"As regards migration to Canada, Mexico, Cuba and Panama, there is little or no difficulty for anyone who looks and speaks like an American in walking across the Mexican or Canadian borders without a passport unless he or she has luggage. Americans are not required to have passports to enter Cuba or the Canal zone, and once on the zone anyone can walk across the street into the Panama cities of Colon or Panama."

FEW AMERICAN GIRLS
"Some evidence was discovered of an existing international traffic of American girls, but almost entirely directed towards Mexico, Cuba, Panama and the one or two cities in Canada in which special houses are still tolerated, such as Montreal and Prince Rupert."

"On the Mexican border, particularly near the American cities of El Paso, Brownsville and Laredo (Texas), Nogales (Arizona),

C. C. ENCAMPMENT INSTALLS NEW OFFICERS

Contra Costa encampment No. 99, of Odd Fellows Friday installed officers for the new year with District Deputy Grand Patriarch Harry Uren and staff of Antioch as installing officer.

Those installed were: High Priest J. M. Johnson; chief patriarch H. E. Howsman; senior warden, Ed Johnson; junior warden, A. Linebaugh; recording scribe, F. Rhodes; financial scribe G. T. Sanley; treasurer, J. B. Macdonald; guide, R. H. David; first watch, J. L. Brown; second watch, S. P. Skow; third watch, F. A. Hooper; fourth watch, Grant Howard; inside sentinel, W. T. Campbell; outside sentinel, R. F. Bonham; first guard of tent, Lester Skow and second guard of tent, J. J. Silva. Following the ceremony, a banquet was held under the direction of Lester Skow.

Members of the Eclipse lodge of Odd Fellows attended the installation last night in Crockett when District Deputy Grand Patriarch Uren of Antioch installed the new officers. Members of the Redwood Odd Fellows and Rebekahs were also present.

GO TO MEXICO

"From New Orleans, Tampa and other cities in Southern Florida groups of American girls are known to have left occasionally for the cabarets of Tampico and Mexico City, in Mexico, as well as for those in Havana and the Canal zone. As most of these cabarets are undesirable places, the recruiting of American girls under the guise of legitimate entertainers and artists is international traffic of a dangerous and insidious character for entrapping the inexperienced girl."

Summing up the situation of America in regard to the white slave traffic, the report concludes: "The United States is typical of a country faced with many difficulties, both geographical and social, which has made a determined stand against international traffic and has succeeded in waging a vigorous campaign against its operations. The fact that both incoming and outgoing traffic occur is less remarkable than the fact that the authorities are able to keep those comparatively isolated among the thousands of emigrants received annually."

LEADER WAS VETERAN

The man who led the demonstration was questioned in the navy yard and he told the naval authorities that he was a world war veteran, having seen service in France with the Marine corps. In a statement given to a reporter following their retreat, the spokesmen for the communist group said:

"The demonstration held tonight by several hundred workers in front of the Brooklyn Navy Yard is part of a nation-wide participation in the protest against the ruthless suppression of the Nicaraguan people by the Wall Street-Coolidge government."

"We are opposed to the killing of Nicaraguan workers, women, and children and American soldiers in order to retain in office the puppet President Diaz, whose rule rests upon certain banking interests supported by the Coolidge administration."

arrest, explained that there was nothing unlikely in the circumstance that the murderer might have been a resident of Mt. Diablo, and yet be a stranger to Mr. Bacon, whose farm is on the outskirts of the village.

The feeling is growing that the killer may have been acquainted with the child—may even have been an intimate of her father and mother, Mr. and Mrs. Leslie Schneider.

Rewards for apprehension of the killer now total several thousand dollars. The Genesee county supervisors have posted a reward of \$1,000. This is the limit amount which the State of Michigan permits any county to provide as reward for the arrest of a criminal. The State of Michigan itself, also has put up a reward offer of \$1,000. A similar reward is announced by the Detroit Times.

San Pablo Pioneer Called By Death

Fernandez Cambrs, 65, San Pablo dairyman, passed away at his home yesterday after a lingering illness. A native of Portugal, he had been engaged in various business enterprises in the San Pablo vicinity during the past 23 years.

Deceased is survived by two daughters, Mrs. Mary Moniz of San Pablo and Mrs. Virginia Pacheco of Rhode Island and one son, Manuel Cambrs, also of Rhode Island.

Services will be held Tuesday morning at 9:30 from the Port Curry chapel and in St. Paul's church, San Pablo, at 10 o'clock. Interment will be in St. Joseph's cemetery.

A Handy Food Chopper For 39c

This item is adapted for chopping vegetables of all descriptions. For soups and so forth. It is almost indispensable for preparation of salads. In cutting up carrots for preparation for the table—for the baby's food. It is of great use in making hash. There are many uses for this item in connection with better and more convenient food preparation. The housewife would not be without one after she had experience in the use of it.

This food chopper or food mincer consists of a graduated glass bowl with a capacity of four cups or approximately one quart; a seasoned wooden block, which fits into the bottom of the container for the protection of the knives; a mechanical part consisting of a well and strongly made cover to fit the jar, through which operates a plunger-wooden handle-white enameled-blue tipped, and on the other end are securely attached four sharp and strong steel blades.

The size of the jar and the simplicity and strength of the mechanical perfection makes this item the most efficient and satisfactory which has been developed for its use and purpose.

It Holds Four Cupfuls

Here is a kitchen utensil that will appeal to every housewife. It chops vegetables for soups, salads, dressings, etc., quickly and easily, the graduated glass bowl holds four cupfuls—about one quart. On the bottom of the container is a seasoned wooden block, that protects the glass; a strongly made cover fits the top of the jar, and there is a wooden handled plunger attached to four, sharp steel blades. A special opportunity to get this convenience at such a very low price.

How to Get a Chopper
